DRI Mission, Diversity Statements

DRI is the international membership organization of all lawyers involved in the defense of civil litigation. DRI is committed to: enhancing the skills, effectiveness, and professionalism of defense lawyers; anticipating and addressing issues germane to defense lawyers and the civil justice system; promoting appreciation of the role of the defense lawyer; and improving the civil justice system and preserving the civil jury.

DRI is the largest international membership organization of attorneys defending the interests of business and individuals in civil litigation.

Diversity is a core value at DRI. Indeed, diversity is fundamental to the success of the organization, and we seek out and embrace the innumerable benefits and contributions that the perspectives, backgrounds, cultures, and life experiences a diverse membership provides.

Inclusiveness is the chief means to increase the diversity of DRI's membership and leadership positions. DRI's members and potential leaders are often also members and leaders of other defense organizations. Accordingly, DRI encourages all national, state, and local defense organizations to promote diversity and inclusion in their membership and leadership.

Foreword

The DRI Construction Law Committee is pleased to present *Construction Litigation Desk Reference*. This fifty state guide to construction litigation is written for those who handle construction litigation claims or manage construction litigation risk.

The *Desk Reference* provides a concise analysis of the issues regularly encountered in construction litigation including: insurance coverage, contract law, torts, delay claims, lien law, and damages.

The publication is divided by state, and each state chapter is authored by an attorney with expertise in construction litigation. The goal of the desk reference is to provide a quick reference of the law on a given topic to enhance the reader's baseline knowledge and provide for more productive claim handling and strategy discussions with counsel.

Recognition is owed to the Construction Law Committee for its support with this project, the authors who provided the material for each state, as well as Lynn Conneen and the entire staff of DRI for their invaluable support and guidance.
